SDG Infratech

Products & Services

Comprehensive industrial solutions and infrastructure procurement tailored for corporate precision and unwavering reliability.

Product Catalog

Electrical & Infrastructure

Cables and Wires (PVC, XLPE)

Switchgear (LVT, Schneider)

AC/DC/DC/IT Panels, Electrical Accessories

Bayaj/Crompton/Orient LED and Flood Lights

Switches/sockets (Anchor, Legrand, Wipro)

AKG/BEC conduits

Telecom Goods

Server Racks, Networking Racks

19 inch Transmission Racks, IP55 Cabinets

MDF, DP Boxes

Krone Tools and Modules

GSM and microwave mounts

Installation Material

Weather Proofing Kits

Cable Trays and Ladders (galvanized/powder coated/perforated)

Earthing Material (chemical earthing)

Earthing Material (chemical earthing)

EGB/IGB

Junction/MS boxes, cable entry/hatch plates

Mechanical & Industrial

Bearings

Rubber gaskets

Industrial machinery components

Professional Services

Ensuring operational precision and structural integrity throughout the project lifecycle.

Installation and Commissioning

Expert deployment of infrastructure components ensuring full compliance with industry standards.

Preventive Maintenance

Scheduled servicing and rapid repair protocols to minimize operational downtime.

Technical Consultancy

Strategic advisory services for infrastructure planning and systematic procurement.

Supply Chain Management

End-to-end logistics and inventory optimization for large-scale corporate projects.

SDG Infratech

Engineering the Future Through Collective Expertise

Our experienced specialized capabilities and strategic network of partners form the backbone of India's critical infrastructure.

Technical Workforce Excellence

Deploying over 200+ trained professionals across demanding operational environments, we prioritize skill, safety, and continuous development.

Rigorous Training

Our personnel undergo stringent certification processes tailored to meet telecom and civil infrastructure standards.

Safety First Culture

Zero-compromise protocols ensure safe operations on every site, safeguarding our teams and your project timelines.

Continuous Knowledge Sharing

Regular workshops and technology briefings keep our workforce at the bleeding edge of structural and networking advancements.

Strategic Global Network

We don't build alone. SDG Infratech collaborates intimately with top-tier OEMs and global service providers to architect seamless, resilient infrastructure solutions.

Unmatched Scale

Leveraging global supply chains to handle massive regional deployments.

Resource Efficiency

Optimized material procurement and shared logistical networks.

Rapid Deployment

Pre-integrated OEM solutions accelerate time-to-market for critical nodes.

Ready to collaborate?

Engage with our experts to discuss how our teams and partnerships can elevate your next infrastructure project.

Mobile 390x844

SDG Infratech

Telecom IBS Services

End-to-end In-Building Solution (IBS) infrastructure for robust indoor cellular connectivity and network excellence.

IBS Implementation Process

A systematic approach to ensuring flawless indoor network coverage, from initial survey to final integration.

1

Survey & Design

Comprehensive RF planning, precise walk-tests, and architectural analysis.

2

Material Procurement

Sourcing premium antennas, industrial-grade splitters, and high-capacity cables.

3

Installation & Integration

Expert BTS installation, structured cabling, and seamless network integration.

4

Testing & Optimization

Rigorous KPI verification, network fine-tuning, and documented site handover.

Core Technical Services

Specialized engineering solutions for resilient telecom infrastructure.

1

BTS Installation & Commissioning

Professional deployment of Base Transceiver Stations and associated indoor infrastructure to ensure robust signal distribution.

2

Site Optimization

Advanced fine-tuning of RF parameters to maximize indoor coverage, capacity, and overall network performance.

3

Site Approval & Documentation

Comprehensive management of the approval lifecycle, including detailed technical site reports and compliance documentation.

Hardware & Enclosures

We provide industrial-grade physical infrastructure to house and protect critical telecom equipment.

1

Standardized 19-inch equipment racks.

2

Secure, climate-controlled server cabinets.

3

High-performance structured cabling systems.

4

Durable, site-ready utility enclosures.

Mobile 390x844

SDG Infratech

The Foundation of Industrial Reliability

Why leading enterprises trust SDG Infratech for their critical infrastructure procurement and deployment.

Strategic Advantages

Built on precision, scale, and uncompromising quality.

Comprehensive Portfolio

High-grade industrial components and specialized engineering materials designed for structural integrity.

Quality Assurance

Rigorous testing protocols ensuring all procurements meet international safety standards.

Vendor Development & Sourcing

Sourced from trusted partners to meet strict structural integrity standards.

Support Availability

24/7 technical consultancy and rapid deployment logistics.

Competitive Pricing

Leveraging supply chain efficiency to deliver value without compromising precision.

Procurement Reliability

We focus on zero-defect delivery and seamless supply chain management. Every component sourced through SDG Infratech is meticulously vetted, tracked, and delivered to ensure your critical infrastructure projects remain on schedule and structurally sound.
